

Quality, service, and customer satisfaction is our driving force.

AFRIQ LITHIUM EP 2L WITH GRAPHITE

DESCRIPTION

High quality Lithium-Base Greases blended from solvent-refined oils and incorporates corrosion and oxidation – Inhibitors. They have outstanding chemical stability under severe working conditions and operating temperatures of 10 °C to 130 °C. Their resistance to oil separation and water is very good making them ideal under moist and corrosive conditions. They contain 10 % graphite..

SPECIFICATION

These products conform to SABS specification 406.

APPLICATION

This product is recommended for the lubrication of anti-friction and plain, ball and roller bearings. It is also recommended in all types of machinery such as electric motors, generators and mechanisms that have ferrous and non-ferrous bearings.

TYPICAL CHARACTERISTICS

| | |
|----------------------------|--------------|
| Thickening Agent | Lithium |
| NLGI Classification | 2 |
| Worked Penetration @ 25 °C | 265/295 |
| Drop Point °C | 180 |
| Oil Viscosity @ 40 °C | 90 – 110 |
| Rust Prevention | 1 |
| Recommended Temp. Range | 10 to 130 °C |
