

Quality, service, and customer satisfaction is our driving force.

AFRIQ HTP NO 2 PASTE

APPLICATION

Afriq HTP No 2 Paste, is a solid lubricating paste, based on the newest technology. It is an anti-seize, lubricating and fitting paste, used in the railways, building construction industry, and automotive-, steel-, and cement industries, for the rings on the drum kilns, etc.

CHARACTERISTICS

- Is very tacky and easy to apply
- Is based on high quality lubrication oils and esters. With special additives which also gives excellent corrosion protection.
- Is very resistant against water, acids, alkaline, etc.
- Is compatible with all commonly used materials.
- Can also be used where wet or dry conditions are present.

TYPICAL PHYSICAL PRPERTIES

NLGI classification	2
Colour	Grey-Reddish
Structure	Good Adhesive
Drop Point °C	None
Operating Temperature	-40 °C to + 1200 °C
Oxidation stability @ 100 °C	04 psi
Oxidation stability @ 250 °C	10 psi
