

Quality, service, and customer satisfaction is our driving force.

AFRIQ 1907 WATER RESISTANT PUMP GREASE

DESCRIPTION

Afriq 1907 Water Resistant Pump Grease is a modern, high-tech formulated universal lubricant. It is highly waterproof and does not emulsify in water at all. It's affinity to the metal surface makes it unique and it guarantees even under difficult circumstances faultless working conditions.

APPLICATION

The extraordinary fibrous and adhesive nature of **Afriq 1907 Water Resistant Pump Grease** reduces the squeaking or rattles movement on pins bushes, bolts and joints. This product is used all over where machines come into contact with water and salt. It is also suitable for ships in fresh and salt water, and chain drive in watery and moist surroundings. It also prolongs the lifetime of the bearing in comparison to other standard universal greases. Due to the excellent film strength of **Afriq 1907 Water Resistant Pump Grease**, the lubrication intervals are extended and the build-up of rust due to moist surroundings is reduced for long periods.

TYPICAL PHYSICAL CHARACTERISTICS

| | |
|---------------------|----------------------------|
| Colour | Ivory |
| Thickener | Calcium Sulphonate Complex |
| NLGI | 2 |
| Drop point | >250 °C |
| Penetration | 280 |
| Working Temperature | -10 °C -+ 150 °C |
| Base Oil | Viscous Semi-Synthetic |
