

Quality, service, and customer satisfaction is our driving force.

## AFRIQ CALCIUM COMPLEX EP2 GREASE

### DESCRIPTION

**Afriq Calcium Complex EP 2 Grease** contains special additives to provide extreme pressure properties for extra protection against wear and heavy shock loads. This grease has good resistance to heat, outstanding mechanical stability especially under high shear condition and retains the lubrication ability and protection even in the presence of or mixed with water. This grease meets and exceed SKF Emcor washout test and can be described as a multi service grease. It is available in all NLGI grades.

### SPECIFICATIONS

**Afriq Calcium Complex EP 2 Grease** can be used in all types of anti-friction and plain bearings, including those subjected to oscillatory movement through limited angles. Due to the good adhesiveness, it is suitable for miscellaneous components such as gears, cams, slides, etc.

### FEATURES

- Universal grease
- Longer component life even in the presence of water
- Excellent temperature stability
- Economical
- Good pump ability
- Adhesive
- Lead free

### TYPICAL PHYSICAL CHARACTERISTICS

Oil viscosity @ 40°C	170 Cst
NLGI	2
Worked penetration @ 25°C	265 – 295
Operating range °C	-20°C to 160°C
Drop point °C	250°C
