

Quality, service, and customer satisfaction is our driving force.

AFRIQ CALCIUM COMPLEX NO.2 GREASE

DESCRIPTION

Calcium Complex Grease is a premium quality multi-purpose grease and have exceptional heat and water resistant properties. They contain extreme pressure, anti-rust and anti-oxidant additives for excellent protection against wear under heavy and shock loaded conditions.

APPLICATION

The lubrication of all types of anti-friction and plain bearings operating at normal or in severe conditions as well as gears, cams, slides, universal joints, plant vehicles and scraper winches in the mining industry. Highway and off-highway applications, agricultural tractors, heavy duty transport and general and industrial greasing.

PARTICULAR BENEFITS ARE:

- Stability over wide temperature range
- Resists water washing
- Ecological acceptable
- Reduces wear
- Excellent rust & corrosion protection extends plant life
- Protects against heavy and shock loads
- Save maintenance costs
- Low oil Bleed
- Extreme Pressure Capability

TYPICAL CHARACTERISTICS

NLGI Classification	2
Worked Penetration @ 25 °C	265 - 295
Drop Point °C	250 MIN
Base Oil Viscosity @ 100 °C cst	15
Timken O.K Load kg.	20
Thickener	Calcium
Colour, Visual	Brown
Operating Temperature °C, max	150
