

Quality, service, and customer satisfaction is our driving force.

## AFRIQ HD ANTISEIZE GREASE

### **PRODUCT LINE**

HD Anti-seize Grease is a premium quality lubricant specifically designed for reducing rotating friction between drill rods and casings. Its excellent adhesion and water resistance properties ensure that it stays in place.

### **APPLICATION**

HD Anti-seize Grease is applied by hand to the outside of the drilling rods, prior to insertion into the hole.

### **PERFORMANCE BENEFITS**

- Reduces friction and thus horsepower requirements.
- Increases drilling efficiently.
- Contains a germicidal agent to help prevent infection of cuts which may occur during handling of the drill rods.

### **TYPICAL CHARACTERISTICS**

PROPERTY	ASTM METHOD	
NLGI no.		2
Base oil viscosity @ 40 °C (cst) @ 100 °C	ASTM D445	117.6 10.8
Drop Point (°C)	D2265	385/196
Colour		Black
Four Ball Weld Scar test	DIN 51350:5	mm
Four Ball EP Properties, load wear (kg)	D2596	42
Water Washout @ 79°C (%wt loss)	D1264	5.0
Thickener Type		Lithium
Rust Prevention	D1743	Pass
Leakage Tendency @ 105 °C (grams)	D1263	1.38
