

Quality, service, and customer satisfaction is our driving force.

AFRIQ C.V. JOINT GREASE

DESCRIPTION

Afriq C.V. Joint Grease is a high-quality multipurpose lithium-based blended from Solvent-Refined Oils and incorporates Multifunctional extreme pressure additive, corrosion and oxidation-inhibitors and molybdenum disulphide. Additional extreme pressure properties and achieved by the use of molybdenum disulphide.

APPLICATION

Afriq C.V. Joint Grease is recommended for the majority of automotive lubricating applications such as universal joints, ball joints, pivot pins and chassis. These greases are often used for the lubrication of inaccessible parts which are included to be forgotten during servicing. It is also recommended for fifth wheel applications.

TYPICAL CHARACTERISTICS

Thickening Agent	Lithium
NLGI Classification	2
Worked Penetration @ 25 °C	265-295
Drop Point °C	170
Oil Viscosity @ 25 °C	200
Timken O.K Load kg.	25
Recommended Temp. Range	-30 to 130 °C
Molybdenum Disulphide	3 %
