

Quality, service, and customer satisfaction is our driving force.

## **AFRIQ HAND CLEANER WITH GRIT**

### **DESCRIPTION**

Hand Cleaner is a homogeneous cleaner in gel form, which is easily spread on the hands to remove oil, grease, wet paint, and grime. It can be wiped off with a cloth or rinsed off with water without leaving any sticky or undesirable residue on the skin.

It does not contain any toxic or irritating ingredients that have an adverse effect on a person's health or skin.

Furthermore, it contains a preservative and lanolin to prevent the development of fungi and helps to protect the skin.

Hand Cleaner is free of Ammonia, Caustic Soda or Halogenated Hydro-Carbon Solvents and has a pharmaceutical grit with an orange fragrance.

In addition it has a neutral ph and no unpleasant odour is left on the hands after use.

### **APPEARANCE**

Orange gel with orange fragrance.

### **NOTE**

Individuals with known sensitive skin should take care when using waterless hand cleaners. The solvents could cause defatting with resultant dry-skin irritation. An additional aid in preventing excessive dryness, especially in water, would be the use of a suitable barrier cream.
