

Quality, service, and customer satisfaction is our driving force.

AFRIQ CALCIUM GRAPHITE NO 2

DESCRIPTION

Afriq Calcium Graphite No 2 is a dark grey or black colour grease. It has smooth textures homogeneous mixtures of premium quality base oils. It is a calcium base soap in incorporating finely dispersed lubricating graphite. The graphite acts as a solid lubricant, reduces friction, prevents scuffing and seizures even when grease is displaced. This product has a strong affinity to metal surfaces and high resistance to water washout.

APPLICATION

AFRIQ Calcium Graphite No 2 can be used in:

- open gears;
- pantographs;
- pump glands;
- link pins;
- bushes and
- linkages or where plain bearing are badly worn.

In addition these greases can also be used in rail and flange lubricating equipment.

This grease is specially developed for the lubrication of:

- pantograph copper strips;
- contact wires;
- steam locomotives pins,
- bogie centres and
- wire ropes.

TYPICAL PHYSICAL CHARACTERISTICS

Appearance	Smooth grey or black
Graphite	10 %
Water content % (m/m)	1.5 max
Prompt at CCS No	181-63-0280
Thickening agent	Calcium
NLGI Classification	2
Worked penetration	270-0290
Drop point °C	90 °C
